In this tour, we will show you the countryside and the mountains of the north of Cadiz province. Also the mountains of the south of Seville province.

We will visit inland endorheic lagoons as resting places of migrating birds. We will watch birds from the mediterranean countryside, from high mountain area, riverside, Woodland, Cork oak forest and crop fields.

You will have the opportunity to immerse yourself in an environment with a variety of wildlife without needing to travel long distances.

Your accommodation will be in rural Hotels, where you will enjoy hospitality, relaxation, landscapes and authenticity.

The visits to the different landscapes will be conditioned by the weather condition and best moments of the day by the guide decision.
